

## QGIS Application - Bug report #9249

### Composer renders fonts incorrectly when saved as bitmap

2013-12-23 07:51 PM - Patrick Dunford

<b>Status:</b>	Closed		
<b>Priority:</b>	Normal		
<b>Assignee:</b>			
<b>Category:</b>	Map Composer/Printing		
<b>Affected QGIS version:</b>	master	<b>Regression?:</b>	No
<b>Operating System:</b>	Windows	<b>Easy fix?:</b>	No
<b>Pull Request or Patch supplied:</b>	No	<b>Resolution:</b>	duplicate
<b>Crashes QGIS or corrupts data:</b>	No	<b>Copied to github as #:</b>	17865
<b>Description</b>			
<p>When I save to bitmap in the Composer it renders the text fonts incorrectly in the labels of one of the layers. This only occurs in a layer which has the labels Placement set to Curved.</p> <p>Saving to bitmap from the main application window does not cause the same problem regardless of label settings.</p> <p>Using the example image you can see this is only occurring on some of the labels displayed, i.e. the labels of one particular layer.</p> <p>QGIS version 2.1.0-Master QGIS code revision c6ab606 Compiled against Qt 4.8.5 Running against Qt 4.8.5 Compiled against GDAL/OGR 1.10.1 Running against GDAL/OGR 1.10.1 Compiled against GEOS 3.4.2-CAPI-1.8.2 Running against GEOS 3.4.2-CAPI-1.8.2 r3921 PostgreSQL Client Version 9.2.4 SpatiaLite Version 4.1.1 QWT Version 5.2.3 PROJ.4 Version 480 QScintilla2 Version 2.7.2 This copy of QGIS writes debugging output.</p>
