

QGIS Application - Bug report #9310

Save dialogue for Geoprocessing outputs is inconsistent

2014-01-08 03:02 AM - Neil Benny

Status:	Closed	
Priority:	Normal	
Assignee:		
Category:	GUI	
Affected QGIS version:	2.2.0	Regression?: No
Operating System:	Windows	Easy fix?: No
Pull Request or Patch supplied:	No	Resolution: fixed/implemented
Crashes QGIS or corrupts data:	No	Copied to github as #: 17918
Description		
<p>The dialogue for saving a vector output using Windows 7 (64 and 32bit) is a different dialogue box from the save vector layer dialogue box.</p> <p>For saving and loading vectors, a standard windows explorer window opens. When saving a vector output, following processing, a QGIS dialogue box opens.</p> <p>This appears to not read certain network privileges on some public sector networks. It is easy to work around, but would be good if it could be fixed in a future release.</p>		

History

#1 - 2014-02-26 08:22 AM - Neil Benny

This remains an issue in the current version (2.2)

#2 - 2014-03-01 03:53 AM - Giovanni Manghi

- Affected QGIS version changed from 2.0.1 to 2.2.0
- Category set to GUI
- Target version set to Version 2.4

#3 - 2014-03-01 08:27 AM - Jürgen Fischer

- Target version changed from Version 2.4 to Future Release - High Priority

#4 - 2017-05-01 01:08 AM - Giovanni Manghi

- Regression? set to No
- Easy fix? set to No

#5 - 2018-06-01 07:47 AM - Nyall Dawson

- Resolution set to fixed/implemented
- Description updated
- Status changed from Open to Closed

Fixed in 3
