QGIS Application - Bug report #9311
Creating a group layer reverses order of selected layers in new group

2014-01-08 08:51 AM - Donovan Cameron

Status:	Closed		
Priority:	Normal		
Assignee:			
Category:	GUI		
Affected QGIS version:	2.0.1	**Regression?:**	No
Operating System:		**Easy fix?:**	No
Pull Request or Patch supplied:	No	**Resolution:**	
Crashes QGIS or corrupts data:	No	**Copied to github as #:**	17919

Description

When selecting more than one layer in the layer list and creating a group from them, the order of the layers is reversed.

It would be nice if the order of the selected layers was respected in the new group layer.

This is the behaviour in Windows 8.1 and 7 (64bit) with QGIS 2.0.1 from OSGeo4W64.
