

## QGIS Application - Bug report #9328

### Path requires Return to be saved

2014-01-13 11:10 PM - Paolo Cavallini

<b>Status:</b>	Closed	
<b>Priority:</b>	Normal	
<b>Assignee:</b>	Victor Olaya	
<b>Category:</b>	Processing/Core	
<b>Affected QGIS version:</b>	2.0.1	<b>Regression?:</b> No
<b>Operating System:</b>	Windows	<b>Easy fix?:</b> No
<b>Pull Request or Patch supplied:</b>	Yes	<b>Resolution:</b>
<b>Crashes QGIS or corrupts data:</b>	No	<b>Copied to github as #:</b> 17935
<b>Description</b>		
<p>When adding a custom path to a lib or external application, the path is not saved unless one press Return after having typed the string. If you do not, the path appears there, but it is not saved.</p> <p>Looks trivial to fix, but it is quite annoying (it took a good amount of swearing before finding this was the reason).</p>
