QGIS Application - Bug report #9383
Print Composer - Map Frame contents does not fill frame

2014-01-20 05:59 AM - Nicholas Duggan

Status:	Closed		
Priority:	Normal		
Assignee:			
Category:	Map Composer/Printing		
Affected QGIS version:	2.0.1	**Regression?:**	No
Operating System:	Windows	**Easy fix?:**	No
Pull Request or Patch supplied:	No	**Resolution:**	invalid
Crashes QGIS or corrupts data:	No	**Copied to github as #:**	17982

Description

Contents of map frame doesn't fully fill frame (see attached image).
This works on the same PC (Windows 8.1) within 1.9 & 1.8 but in QGIS 2.0.1 the data does not fully fill the map frame drawn.

Hmm... looks like you are using the OpenLayers plugin in your map, is this correct? Can you please confirm whether you see the same behaviour if you add a vector layer to the map? The OpenLayers plugin has known issues with composer outputs.

Hi Nyall,

So far with the vector data I've tried, I haven't seen any issue, it would appear it is predominantly the OpenStreet Map from the OL plugin....thanks, I'll just use the vector data instead.

it is not really an issue of the composer, but rather one of the OL plugin. So eventually file a ticket in the proper section

https://issues.qgis.org/projects/openlayers
