Description

I am building with master (a30a9dd) and it fails when I use:

//MODIFIED property for variable: WITH_PYSPATIALITE

WITH_PYSPATIALITE-MODIFIED:INTERNAL=ON

The culprit is the changes to src/core/spatialite/spatialite.c

Build errors are seen here:

https://gist.github.com/timlinux/8593951

When I add the spatialite.c from 68011dd to my master branch it builds fine.
