

QGIS Application - Bug report #9436

QGIS locks up while waiting for WMS response

2014-01-27 04:59 AM - Jonathan Moules

Status:	Closed	
Priority:	Normal	
Assignee:		
Category:	Web Services clients/WMS	
Affected QGIS version:	master	Regression?: No
Operating System:		Easy fix?: No
Pull Request or Patch supplied:	No	Resolution: end of life
Crashes QGIS or corrupts data:	No	Copied to github as #: 18030
Description		
<p>For whatever reason, my WMS server isn't responding to queries at all (timeout). To replicate: Requires Non-functioning WMS.</p> <p>1) Click "Connect" 2) Wait.</p> <p>QGIS does a number of bad things here:</p> <p>a) The entire interface locks up.</p> <p>b) The only button that seems to work is the "X" icon in the top right of the WMS dialog.</p> <p>c) QGIS is using 100% of one core while waiting. Why?</p> <p>d) Even if I close the dialog using the icon in (b) - the WMS log says "Download of capabilities failed; Operation cancelled" - however QGIS remains locked up for a while after this.</p> <p>QGIS - 5192e8d - Windows 7 64 bit.</p>		

History

#1 - 2014-01-27 05:05 AM - Giovanni Manghi

- Target version set to Future Release - High Priority
- Category set to Web Services clients/WMS

#2 - 2017-05-01 01:08 AM - Giovanni Manghi

- Easy fix? set to No
- Regression? set to No

#3 - 2019-03-09 04:04 PM - Giovanni Manghi

- Resolution set to end of life
- Status changed from Open to Closed

End of life notice: QGIS 2.18 LTR
