QGIS Application - Feature request #9487
Dropping the shadows of some objects

2014-02-04 01:26 AM - mathieu rajerison

Pull Request or Patch supplied:	No	**Resolution:**	fixed/implemented
Easy fix?:	No	**Copied to github as #:**	18078

Description

The 2.2 announces gradient fills for objects.

The drop shadows can be applied to labels.

They can be useful to enhance certain features, as it gives the impression that they rise above the map.

Why not having a drop shadow function for objects also ?

History

#1 - 2015-03-28 01:58 PM - Nyall Dawson

- Resolution set to fixed/implemented

- Status changed from Open to Closed

Implemented in master
