

QGIS Application - Feature request #9556

Add the "add feature" button in digitizing toolbar for non-spatial tables.

2014-02-13 02:38 AM - Alexandre Neto

<b>Description</b>		
<p>Don't know if this has been talked before. But I think it would be nice to have a "add feature" button in the digitizing toolbar, that allows one to add a new feature to a non-spatial table without the need to open the attribute table.</p> <p>The button is already there (with a new polygon icon), and is enabled, but does not allow to add no feature to the non-spatial table.</p>
