QGIS Application - Bug report #9576
SLD rule-based style export loses quotes around layer names

2014-02-16 12:43 PM - Trygve Wastvedt

Status:	Closed		
Priority:	Normal

Category:	Symbology		
Affected QGIS version:	2.0.1	**Regression?:**	No
Operating System:	Windows	**Easy fix?:**	No
Pull Request or Patch supplied:		**Resolution:**	not reproducable
Crashes QGIS or corrupts data:		**Copied to github as #:**	18159

Description

When exporting a rule-based layer style to an sld file, any quotes in the rules are removed. If layers have hyphens in their names, this causes a problem when reloading the sld file.

History

#1 - 2015-12-13 01:24 PM - Sebastian Dietrich

I can not reproduce using the current master (commit:262514d97d0ac754e5c2989a2ae85c0eb54c7242).

What are the exact steps to reproduce?

Can you attach an affected SLD file?
