QGIS Application - Bug report #9642
map overview pane fails to update when {opening,creating} a project from an existing project session

2014-02-24 06:16 PM - Mathieu Pellerin - nIRV

Status:	Closed			
Priority:	Severe/Regression			
Assignee:	Martin Dobias			
Category:				
Affected QGIS version:	master	**Regression?:**	No	
Operating System:		**Easy fix?:**	No	
Pull Request or Patch supplied:		**Resolution:**		
Crashes QGIS or corrupts data:		**Copied to github as #:**	18214	

Description

Steps to reproduce:

1. Create a project

2. Add one vector layer

3. Right click on added vector layer and activate '[x] show in overview'

4. Without exiting qgis, create a new project (Project > New), no need to save the current project

5. When the new project is created, the map overview pane will still show the overview of your former project

It's a regression on the qgis master build which does *not* affect qgis 2.2, flagging this as being a multi-threading rendering regression.

There's also a map overview extend issue, but I've yet to come up with a minimal project that shows the issue, working on it.
