QGIS Application - Bug report #9654
No directory shown when data in qgis/bin

2014-02-25 08:20 AM - Jonathan Moules

Status:	Closed			
Priority:	Normal			
Assignee:				
Category:	GUI			
Affected QGIS version:	2.2.0	**Regression?:**	No	
Operating System:		**Easy fix?:**	No	
Pull Request or Patch supplied:	No	**Resolution:**	end of life	
Crashes QGIS or corrupts data:	No	**Copied to github as #:**	18222	

Description

As a result of #9653 - I accidentally created a raster in C:/qgis/bin.
However, when I right clicked on the layer and looked in the general properties "Layer source" all I see is the layername "a.tif". No path is shown but one should be.

History

#1 - 2014-02-27 11:07 AM - Giovanni Manghi

- Target version set to Future Release - Lower Priority

- Category set to GUI

#2 - 2017-05-01 01:08 AM - Giovanni Manghi

- Easy fix? set to No

- Regression? set to No

#3 - 2019-03-09 03:11 PM - Giovanni Manghi

- Resolution set to end of life

- Status changed from Open to Closed

End of life notice: QGIS 2.18 LTR
