

QGIS Application - Bug report #97

identify tool: the window shape and columns width are not preserved

2006-04-20 02:20 PM - werchowyna-epf-pl -

Status:	Closed	
Priority:	Low	
Assignee:	Gavin Macaulay -	
Category:	GUI	
Affected QGIS version:		Regression?: No
Operating System:	Debian	Easy fix?: No
Pull Request or Patch supplied:		Resolution: fixed
Crashes QGIS or corrupts data:		Copied to github as #: 10156
Description		
<ol style="list-style-type: none">1. add a vecto layer2. identify tool3. adjust columns width and window shape to suit your needs4. OK or Cancel5. identify tool again6. your changes from point 3. are not preserved <p>This looks similar to a bug in Grass edit, recently fixed by Radim, where the attribute window also lost users customizations from the previous run.</p> <p>Maciek</p>		

History

#1 - 2006-04-21 01:47 AM - Redmine Admin

It is related only to 'Identify features' window in digitizing mode ('Allow editing' checked)

#2 - 2006-07-14 12:58 AM - Gavin Macaulay -

- *Resolution set to fixed*

- *Status changed from Open to Closed*

Fixed in SVN commit:f71e6c99 (SVN r5599).

Note that instead of restoring the column widths explicitly, qgis adjusts the columns to fit the data in them. I think that this is a more general solution that remembering column widths from last time.

#3 - 2009-08-22 12:46 AM - Anonymous

Milestone Version 0.8 deleted
