Description		
<p>I noticed a problem of centering when using the cross (x) symbol within a circle symbol. The cross is not centered on the circle.</p> <p>Screenshot: http://i.imgur.com/tX9618O.png</p> <p>Here are the settings I used: circle: width 2.0 / no outline width cross: width 1.6 / outline 0.3</p> <p>The bigger the symbols are the less visible it is.</p> <p>It affects boths QGIS 2.2 and master.</p>
