<b>Description</b>			
<p>At some point the ability to manage keys for a user vanished. So new users can't upload their ssh key and existing users can't modify theirs. This mean new plugin authors can't store their code on hub, which has been requested.</p> <p><a href="http://osgeo-org.1560.x6.nabble.com/uploading-plugin-files-to-hub-ggis-org-td5107396.html">http://osgeo-org.1560.x6.nabble.com/uploading-plugin-files-to-hub-ggis-org-td5107396.html</a></p> <p>Did someone remove the Redmine Gitosis plugin or was Gitosis broken on a server update?</p> <p>Was this server space related?</p>			

#### History

#1 - 2014-03-28 10:39 AM - Alex Mandel

- Priority changed from High to Severe/Regression

This bug prevents plugin authors from keeping their code on hub.
