QGIS Application - Bug report #977
Ineffective adding of features in Postgres provider

2008-03-06 01:29 PM - Martin Dobias

Status:	Closed		
Priority:	Low		
Assignee:	Jürgen Fischer		
Category:	Data Provider		
Affected QGIS version:		**Regression?:**	No
Operating System:	All	**Easy fix?:**	No
Pull Request or Patch supplied:		**Resolution:**	fixed
Crashes QGIS or corrupts data:		**Copied to github as #:**	11036

Description

addFeatures() function in Postgres provider works by adding one feature after other in separate queries. With greater amount of features to add this actions takes quite long time (reported that 3000 features with 35 columns lasts about 10 minutes).

When adding all features at once, the most of the time could be saved.
