| <p>related to #9809 , gdal can have options to open xls, xlsx, ods spreadsheets. There is no way to adjust that in QGIS by now. That would be nice to have.</p> <p>Cheers</p> <p>Régis</p> |         |   |

#### History

perhaps this could be done for add raster but I don't think it would be as useful as for vector layers

##### #2 - 2014-03-18 01:20 PM - Régis Haubourg

Maybe Yes. If #9809 is solved, I suppose this is not necessary. I suppose that in the future, we could see more of this options appears in Gdal-OGR.

##### #3 - 2017-05-01 12:47 AM - Giovanni Manghi

- Easy fix? set to No
