**Description**

In the attribute table, in the form view, if you switch the editing mode, the edit widgets are not disabled/enabled. You have to switch to another feature and come back, to update the widgets.

This is even more annoying if you show only selected features and have a single feature selected...

seems fixed.

**#2 - 2014-06-18 10:14 PM - Denis Rouzaud**

*- Status changed from Feedback to Closed*

indeed!
