

QGIS Application - Bug report #9835

QGIS crashes when using "avoid intersection" on problematic layer

2014-03-22 10:54 PM - Oliver Story

Status:	Closed	
Priority:	Normal	
Assignee:		
Category:	Digitising	
Affected QGIS version:	2.2.0	Regression?: No
Operating System:	Linux	Easy fix?: No
Pull Request or Patch supplied:	No	Resolution: fixed/implemented
Crashes QGIS or corrupts data:	Yes	Copied to github as #: 18366
Description		
<p>I am trying to add a new feature to a shapefile polygon layer. The new feature is to cover the inner ring of another feature on the same layer.</p> <p>In "snapping options" I have ticked "avoid intersection" for that layer.</p> <p>I click the "add feature" tool, then left-click several times to trace around the desired area. When I right-click, QGIS crashes.</p> <p>I've tried running in a terminal and receive the following error:</p> <pre>ERROR 1: TopologyException: found non-noded intersection between LINESTRING (149.031 -35.6627, 149.029 -35.6639) and LINESTRING (149.027 -35.6684, 149.032 -35.66) at 149.03040196127108 -35.662914069844454 QGIS died on signal 11Could not attach to process. If your uid matches the uid of the target process, check the setting of /proc/sys/kernel/yama/ptrace_scope, or try again as the root user. For more details, see /etc/sysctl.d/10-pttrace.conf ptrace: Operation not permitted. No thread selected No stack. gdb returned 0 Aborted (core dumped)</pre> <p>I have attached the layer file I'm trying to edit.</p>		

History

#1 - 2014-03-24 03:32 AM - Oliver Story

Additional information: the shapefile causing the issues was created in QGIS by merging together two other shapefiles, and as a result contains a lot of overlapping polygons. I have not done exhaustive testing of different shapefiles, however can report that the error does not occur when I am using just one of the source shapefiles (which does not contain the non-noded intersection referred to in the error message).

#2 - 2014-06-21 02:56 AM - Jürgen Fischer

- Category set to Digitising

#3 - 2014-06-21 05:41 AM - Giovanni Manghi

- Resolution set to fixed/implemented

- Status changed from Open to Closed

does not happen in latest master, reopen if necessary.
