QGIS Application - Feature request #9934
Rotation of features in Map Composer

2014-03-28 08:48 AM - Jonathan Ball

Status:	Closed			
Priority:	Normal			
Assignee:	Nyall Dawson

Pull Request or Patch supplied:	No		**Resolution:**	fixed/implemented
Easy fix?:	No		**Copied to github as #:**	18439

Description

The new ability to rotate features in the Map Composer in version 2.2 is great except you cannot enter negative angles. Allowing negative angles would be a good addition because it allows more sensible rotation of text boxes (rotating a text box by 315 degrees is NOT the same as rotating by -45 degrees because in the former example the text ends up upside down).

I agree that negative rotation is a good feature to have, but why would rotating by -45 degrees result in upside down text? Unless I'm missing something it would result in text from bottom left to top right, the same as a 315 degree rotation.

#2 - 2017-05-01 12:47 AM - Giovanni Manghi

- Easy fix? set to No

#3 - 2018-01-21 06:08 AM - Nyall Dawson

- Status changed from Open to Closed

Fixed in 3.0

#4 - 2018-02-21 09:41 PM - Giovanni Manghi

- Resolution set to fixed/implemented
