

QGIS Application - Bug report #9940

Save to File from Print Layout silently fails when file is open in another application.

2014-03-29 01:36 AM - Alex Leith

Status:	Closed	
Priority:	Normal	
Assignee:		
Category:	Map Composer/Printing	
Affected QGIS version:	2.0.1	Regression?: No
Operating System:		Easy fix?: No
Pull Request or Patch supplied:	No	Resolution: duplicate
Crashes QGIS or corrupts data:	No	Copied to github as #: 18444
Description		
<p>The issue is that you go 'save to PDF' and it works away, and seems to work, but if the file is open in another application it silently fails.</p> <p>What needs to happen is like this (in Python code):</p> <pre>fExists = os.access(outFile, os.F_OK) fAccess = os.access(outFile, os.X_OK) if(fExists and not fAccess): QMessageBox.information(None, "Error", 'Can\\'t write file as it\\'s open in another program. Please close the file or choose a different target.') return</pre>
