QGIS Plugin Site - Bug report #9946

google search directs to https version of the site, which does not work

2014-03-29 02:15 PM - Etienne Tourigny

Status:	Closed
Priority:	Normal
Assignee:	Werner Macho
Category:	
Pull Request or Patch supplied:	No

Description

A google search of "qgis plugins" leads to the https version of the site https://plugins.qgis.org/ but it is offline.

So either the https version should be fixed, or fix the results of the google search.
