| Crashes QGIS or corrupts data: | No | Copied to github as #: 18465 |
| Description Go to : Vector > Data Management Tools > Merge shapefiles to one. Tick the "Select by layers in folder" option. When you click the Browse button to select the Input files, the file dialogue that opens has "Save output shapefile" as its heading. The heading should rather be something like "Choose Input Files". | | |

#2 - 2015-03-24 06:17 AM - Frank Sokolic

- Target version set to Version 2.8.2

#3 - 2015-03-25 11:26 AM - Jürgen Fischer

- Status changed from Open to Closed

Fixed in changeset commit:"e21010c0c6b00fb0c06194673bd06220a1f02e27".

#4 - 2017-05-01 01:21 AM - Giovanni Manghi

The "fTools" category is being removed from the tracker, changing the category of this ticket to "Processing/QGIS" to not leave the category orphaned.
