Pull Request or Patch supplied:	No	**Resolution:**	
Easy fix?:	No	**Copied to github as #:**	18477

Description

It is possible to display coordinates on a map in Composer, by checking **Show grid** and **Draw coordinates** checkboxes in **Item properties** panel.

Sometimes it is difficult to see coordinates when they are displayed **Inside frame**, because the text blends in with other map contents.

It would be great to specify a background colour for the coordinates, similarly to **Background** settings for the map itself.
