

QGIS Application - Feature request #9984
Additional Type case option: Title case

2014-04-03 01:53 AM - No Name

Status:	Closed	
Priority:	Normal	
Assignee:		
Category:	Labelling	
Pull Request or Patch supplied:		Resolution: duplicate
Easy fix?:	No	Copied to github as #: 18478
Description		
<p>There are 4 type case options for Labels: No change, All uppercase, All lowercase and Capitalize first letter.</p> <p>I have a dataset in which values in a particular field are all uppercase. Capitalize first letter setting has no effect here because it does not convert other (2nd and onward) letters to lowercase.</p> <p>I would like to be able to display labels in Title case: capitalise first letter of every word and convert other letters to lowercase.</p>
