

QGIS Application - Bug report #9994

Bug report # 6258 (Closed): browser does not add spatialite db to list of connections after creating new db

Creating Spatialite DBs from Browser

2014-04-03 10:31 AM - Paolo Cavallini

Status:	Closed	
Priority:	Low	
Assignee:		
Category:	Data Provider/Spatialite	
Affected QGIS version:	2.2.0	Regression?: No
Operating System:		Easy fix?: No
Pull Request or Patch supplied:		Resolution: duplicate
Crashes QGIS or corrupts data:		Copied to github as #: 18486
Description		
<p>Creating a SL DB from New layer works well. When doing the same from the Browser, there are two issues:</p> <ul style="list-style-type: none">- the file created does not have a .sqlite (or similar) extension, so it is difficult to find- the newly created DB is not registered among the available DBs.		

History

#1 - 2014-04-03 11:56 AM - Etienne Tournigny

- Parent task set to #6258

I reported the second issue previously here #6258

#2 - 2014-04-08 06:44 PM - Antonio Locandro

I can't seem to find the option to create New Spatialite from latest master update on the Browser

#3 - 2014-06-21 03:07 PM - Jürgen Fischer

- Resolution set to duplicate

- Priority changed from Normal to Low

- Status changed from Open to Closed

- Category changed from Browser to Data Provider/Spatialite
